

LUONG NGOC DUNG

Full-stack Intern

31/08/2004 0336469089 lluongddung1@gmail.com
 Male Hoang Mai District, Hanoi

CAREER OBJECTIVE

I am looking for a Full-stack Intern position. My goal is to use my Frontend knowledge to build a good user experience, while also improving my Backend skills (PHP/Node.js), REST APIs, and databases. In the long term, I want to become a Full-stack Developer with good system thinking, clean code, and strong ability to scale and maintain products. I hope to join projects with Japanese partners/clients and I am willing to work onsite/relocate based on company needs.

EDUCATION

2022 - Present **Hanoi University of Business and Technology** |
Major: Information Technology
GPA: 3.54 / 4.0
Completed foundation courses in programming, databases, and information systems
Self-studying and practicing Backend Development (Node.js, Express, MongoDB) alongside my studies, aiming to become a Full-stack Developer

ACTIVITIES

2023 - Present **Personal | Self-learning & Full-stack Projects**
Built 3+ personal Full-stack projects (REST API + UI), deployed demos, and managed source code on GitHub

SKILLS

- **Frontend:** React, TypeScript, JavaScript, TailwindCSS, Sshadcn/ui, Ant Design
- **Backend:** Node.js, Express, REST API, JWT
- **Tools:** Git/GitHub, Postman, Debugging
- **State:** Zustand (basic)
- **Database:** MongoDB, Mongoose

LANGUAGES

English	Can read technical documentation
Japanese	N5 (learning) – Target: N4 (2026)

PROJECTS

2026 - Present

Chat & Social Web Application | Frontend / Backend

Personal project

Tech stack: React, Zustand, Tailwind CSS / shadcn UI, Node.js, Express, MongoDB, Socket.io

Features: Real-time chat, JWT Authentication, online status, unread count, friend request (optional: group chat)
